EXAM PROFESSIONAL CLOUD SECURITY ENGINEER TOPIC 1 QUESTION 310 DISCUSSION

Actual exam question from Google's Professional Cloud Security Engineer

Question #: 310

Topic #: 1

[\[All Professional Cloud Security Engineer Questions\]](#)

You work for a financial organization in a highly regulated industry that is subject to active regulatory compliance. To meet compliance requirements, you need to continuously maintain a specific set of configurations, data residency, organizational policies, and personnel data access controls. What should you do?

- A. Apply an organizational policy constraint at the organization level to limit the location of new resource creation.
- B. Create an Assured Workloads folder for your required compliance program to apply defined controls and requirements.
- C. Go to the Compliance page in Security Command Center. View the report for your status against the required compliance standard. Triage violations to maintain compliance on a regular basis.
- D. Create a posture.yaml file with the required security compliance posture. Apply the posture with the gcloud scc postures create POSTURE_NAME --posture-from-file=posture.yaml command in Security Command Center Premium.
