📄 **EXAM PROFESSIONAL CLOUD SECURITY ENGINEER TOPIC 1 QUESTION 218 DISCUSSION**

Actual exam question from Google's Professional Cloud Security Engineer

Question #: 218

Topic #: 1

[All Professional Cloud Security Engineer Questions]

Your organization uses Google Workspace Enterprise Edition for authentication. You are concerned about employees leaving their laptops unattended for extended periods of time after authenticating into Google Cloud. You must prevent malicious people from using an employee's unattended laptop to modify their environment.

What should you do?

A. Create a policy that requires employees to not leave their sessions open for long durations.

B. Review and disable unnecessary Google Cloud APIs.

C. Require strong passwords and 2SV through a security token or Google authenticator.

D. Set the session length timeout for Google Cloud services to a shorter duration.

Selected Answer: D

TBH, it's the only answer that makes sense to the Q being asked.
